Longyou Dec.11,2017

Dear Ms.Sibylle Karschin,

Merry Christmas and happy new year!

How time flies! It's five years since you last visited Longyou Middle School. How are you!

Thanks to our joint efforts, we have exchanged our teachers and students for three times successfully.

We have harvested so much from the past three exchange programs.

Recently, our school has been titled Provincial Specialist School on foreign culture exchanges. I'd like to share the great honor with you and Theodor Storm Schule Husum.

I have got a vivid example to illustrate the meaning of our culture exchanges .One of our Chinese exchange students to Husum in 2015 was admitted into Anji Engineer College this September, a college that has cooperation with Lubeck Applied Science University. He was so impressed by German technology that he has made up his mind to achieve both Chinese and German bachelor's degrees and later to finish his last year of college study in Germany.

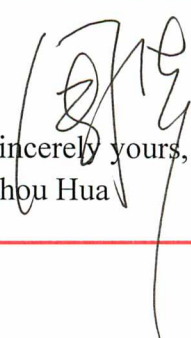

What moved me most was the German teachers who led and organised the exchange program in 2017. Bjorn made a decision to come to China in just a few hours , Sunje took the place of Denis ,Wencke accompanied Chinese students during her sorrow time and you ,dear Ms Karschin, took two teachers Mr Chen and Mr Qiu home. The devotions from the teachers of TSS are the most precious gifts for us.

Please accept our deepest gratitude and sincere respect for what you all have done for the friendship of our two sister schools. My colleagues and I wish the friendship between Theodor Storm Schule Husum and Longyou Middle School will last forever.

Wishing TSS a sparkling Christmas and bright happy New Year!

May the season bring much pleasure to you!

Sincerely yours,  
Zhou Hua
